Excellent

Work History

2021-09 - Projects

Current

Portfolio :

- Created My Portfolio Using HTML, CSS and Javascript Framework React.
- Used Tailwind as CSS Utility Library

Netflix Clone :

- Used React JS, created layout manually with plain CSS
- Used Redux Toolkit for State Management.

Covid 19 Tracker:

- Used Material UI Components in Craeting Tracker App.
- Fetch Data from Covid 19 API and display charts based on it

2022-01 - NESL-IT

Current

NESL-IT, Rawalpindi

- Working as a Software Engineer, resolving bugs and issue in existing Projects.
- Worked on Node Js and Express. Created Server using HTTP module and API using Express with MongoDB as database
- Used Styling Libraries such as Material UI, Tailwind CSS, SCSS.
- Redux Toolkit as State Management.
- Utilized React Hooks, and wrote custom Hooks.
